Notes

All figures shown estimated using HLH formula to convert PSS to size in cm. To see difference between EA formula and HLH formula, look at individual monthly workbooks.

The percentage splits used are either from HLH trapping data, from EA or from historical EA data.

1. 100% salmon Jan-March
2. EA % splits
3. HLH % splits from trapping data
4. EA 2016 % splits
5. Multiple problems with counter. Data may be missing.
6. Up until 22nd Nov, high flood, counter out of action
